Emmanuel Aka

Full-Stack Developer | UI/UX Designer | Data Analyst

📍 Lagos, Nigeria | 📧 allmicandfame@gmail.com | 📞 +234 806 309 9975

🔗 GitHub: github.com/RigidRhymes

🧠 Profile Summary

Creative and detail-oriented full-stack developer with a strong foundation in systems engineering, publishing, and data analysis. Progressed from IT infrastructure and creative workflows into designing and building responsive web applications, educational platforms, and data-driven tools. Skilled in merging design thinking with technical execution to deliver impactful digital experiences across the stack — from intuitive UI/UX to secure backends and insightful analytics. Versatile in leveraging modern AI tools such as Microsoft Copilot, ChatGPT, Juni for WebStorm, and GitHub Copilot to accelerate development, enhance productivity, and optimize workflows.

🛠️ Technical Skills

Languages: JavaScript, Python
Frontend: React, Next.js, HTML, CSS, Tailwind CSS
Backend & Database: Firebase, Supabase, Node.js, PostgreSQL, Appwrite
Data Analysis: Pandas, NumPy, Matplotlib, Excel, Google Sheets
Design Tools: Figma, CorelDRAW, Photoshop, MS Visio, Google Stich, Canva
Other Tools: Git, GitHub, VS Code, Webstorm, Postman
AI & Productivity Tools: Microsoft Copilot, ChatGPT, Juni (WebStorm AI Assistant), GitHub Copilot.
Low-Code/No-Code Tools: Google Forms, Google Sheets, AppSheet

---

🚀 Selected Projects

🌐 Web Applications

- **3D Portfolio Website** – React Three Fiber, interactive animations
- **Video Sharing Website** – Supabase + React, YouTube-style platform
- **DogoTracker** – Node.js, PostgreSQL, Firebase Auth; tracks compromised emails
- **Simple Greeting App** – Personalized greetings from user input

📱 Mobile & Consumer Apps

- **Uber-like Ride-Hailing App** – Google Maps API + Firebase

- **No-Strings Dating App** – Real-time messaging with Appwrite
- **Food Delivery App** – Backend powered by Appwrite

🎓 Educational Platforms

- **JAMB & SSCE Tutorial App** – Supabase + Node.js backend, LiveKit for live video, CBT tracking

📊 Data & Analytics Tools

- Logistics Management App – Tailwind CSS + Figma dashboard for delivery tracking
- **Customer Insights Dashboard** – Python (Pandas, Matplotlib) + Excel
- **Property Management System** – Designed with Google Forms, Google Sheets, and AppSheet; automated workflows, real-time dashboards, and integrated messaging system for property tracking and communication

---

💼 Professional Experience

System Engineer & Network Admin – The Girl from Ipanema Cafe | 2008–2009
- Installed POS systems and guest WiFi; implemented backup solutions.

System Engineer & Maintenance Technician – Macrosolutions | 2010–2013
- Repaired PCs, installed networks, and set up desktop publishing systems.

Supervisor System Engineer & Network Administrator – Jacksonville Company | 2014–2017
- Oversaw deployments, network configurations, and security upgrades.

Publisher – DigitAll Books | 2017–2018
- Directed editorial design and production logistics; promoted publications.

Director, Network Administrator & System Engineer – Signs DigitAll World | 2018–2020
- Managed IT operations, upgrades, and creative publishing workflows; trained junior engineers.

Full-Stack Developer & UI/UX Designer – Freelance | 2022–Till Present
- Built responsive apps with React, Next.js, Firebase, Supabase; prototyped in Figma.

Data Analyst – Freelance | 2024–Present
- Analyzed customer behavior with Python; built dashboards in Excel/Sheets; delivered marketing insights.

📚 Education & Certifications

- Diploma in Computer Engineering – DIT, 2008

- Certificate in Desktop Publishing – Macrosolution, 2008
- BSc. Computer Science – University of Benin, 2021
- Data Analysis Certificate – WorldQuant University, 2024
- Python Programming Certificate – Cisco Networking Academy, 2024
- Full-Stack Development Certificate – freeCodeCamp, 2024

📖 Publishing Projects

Two Nights in One Day – Novel Publisher, Benin (2012)

- Published dramatic novel exploring surreal intersections of time, fate, and emotion.
- Led layout design, cover production, and editorial review.
- Coordinated distribution through literary networks, book fairs, and online platforms.
- Supported promotional efforts including author interviews and public readings.

Abayomi Barber: The Politics of African Art – Freeborn Odiboh (2018)

- Contributed to the publication of a major academic work on African art and cultural politics.
- Supported editorial coordination, design, and distribution.
- Publication available online, expanding reach beyond Nigeria.

DigitAll Books – Benin, Nigeria (2017–2018)

- Published academic and creative works, directing editorial coordination and production logistics.
- Designed covers and managed creative workflows, merging design with technical execution.
- Promoted publications through exhibitions, networks, and digital platforms.

Signs DigitAll World – Nigeria (2018–2020)

- Oversaw creative publishing workflows alongside IT operations.
- Directed design and signage production projects, blending publishing with digital media.

🎨 Creative Highlights

- Designed book covers and branding assets for academic and creative publications.
- Directed signage and exhibition materials for literary and cultural events.
- Created editorial layouts combining technical precision with visual storytelling.
- Delivered branding solutions that merged publishing with digital design tools (Figma, CorelDRAW,
